**Report suspected scams to:  
petscams@ipata.org**

Please forward only one (1) email (Please do not send attachments.) you receive from a suspected scammer to our office for investigation. We will add those email addresses, websites, and other information to this alert list. Working with Fraudwatchers.org, we can report the websites and usually get them shut down.

Scammers frequently use free email services, like live.com, hotmail.com, rocketmail.com, and yahoo.com, among others. They use free website hostes, like webs.com or 110.com.

If you have been scammed....even if you did not send any money.....please, please take the time to report it to the Internet Crime Complaint Center: www.ic3.gov. This is an international investigative agency. they can only investigate scams if they hear about them. Contact your local law enforcement agency; contact the FBI or similar agency in your country.

If you did send in a payment through Western Union or MoneyGram, go to the office you sent the payment through and visit with the manager. Report the scam to them, and give them copies of the directions you received from the scammers—including any names, addresses, or email addresses—and ask them to share this information with all their offices.

**Report any scams to:  
petscams@ipata.org**
